

CLM-10437

$\frac{5}{8}$

A technical drawing of a profile. The profile is a horizontal line with a thickness of $\frac{5}{8}$. The top edge of the profile is irregular, with a small notch on the left side, a slight rise in the middle, and a small bump on the right side. The bottom edge is a straight horizontal line. The total length of the profile is $4 \frac{1}{4}$. The drawing is shown in a side view, with vertical lines indicating the start and end of the profile.

$4 \frac{1}{4}$
