

CLM-10702

7/8

The image shows a technical drawing of a decorative molding profile. The profile is a dark purple line on a white background. It starts with a vertical line on the left, followed by a horizontal line that is 7/8 units high. This is followed by a large, smooth, rounded arch. The arch then descends to a lower, flat-topped section. This section has a small horizontal step down, followed by a curved dip, and then a smaller, rounded arch. The profile ends with a small horizontal step down and a vertical line on the right. The total width of the profile is 2 1/2 units. Dimension lines are shown as horizontal lines with vertical tick marks at the ends. The dimension 7/8 is placed to the left of the first horizontal line, and the dimension 2 1/2 is placed below the main horizontal line of the profile.
